VR Headsets

Available in sets of 4, 8 & 30.

Our ClassVR Xplorer Headsets are available in sets of 4, 8 and 30 to meet the demand of your classroom. With a cushioned carry case included, your VR headsets can be easily transported from classroom to classroom, ensuring every student is able to be easily immersed in the cutting-edge educational metaverse.

Why invest in ClassVR?

ClassVR Xplorer Headsets offer schools a cutting-edge virtual reality headset that brings lesson plans to life. Designed to nurture curiosity and make learning engaging, with ClassVR Xplorer students can immerse themselves in 360-degree scenes, explore 3D models and live in a world of explorable scenes, learning about anything from gravity to Shakespeare with content that is curriculum aligned and written to coincide with detailed lesson plans. This means these headsets won't just make learning fun, but it will make an educators job both easier and even more rewarding.

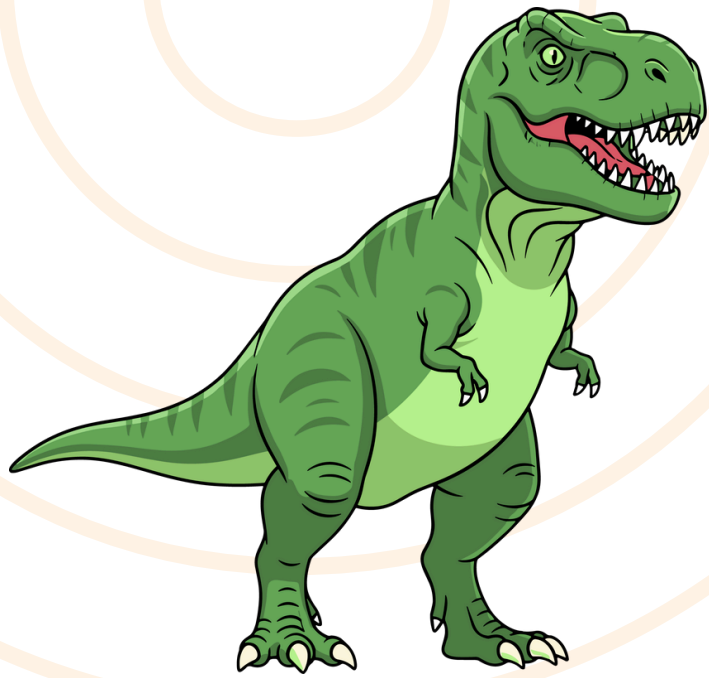

CORLEY ACADEMY
Inclusion Aspiration Perseverance Independence

Corley Academy, UK

“Instead of having to imagine things, students can actually immerse themselves within the subjects they’re learning about, which is going to transform the way our students learn and grasp concepts. VR/AR can help us in so many ways, and it’s already starting to make a big difference.”

Sarah Rose, Deputy Head.

What can you do with **CLASSVR?**

**Go back in time &
Meet the dinosaurs!**

(Time machine not included)
