

NEW ARRIVAL

Google Workspace

What is a google certified screen?

Google certification ensures smooth integration with the entire **Google ecosystem**, encompassing **Google Workspace** and the complete **Microsoft 365 suite**. The term EDLA represents the Enterprise Devices Licensing Agreement, a program introduced by Google in late 2022. This initiative aims to assist solutions providers in delivering devices equipped with **integrated Google Mobile Services**.

Gain official access to the **Google Play Store**, ensuring a wide array of applications for your device. Experience seamless integration with various Google tools, enhancing overall functionality and productivity. Additionally, enjoy heightened device **security**, providing a **safer** and **more protected** user experience.

Interactive screens either come with the EDLA software **built into the screens** which means it's ready to go once it's switched on **or** they come with an **additional EDLA OPS** which needs plugin into the screens OPS slot then it's ready to do

Our product pages will specify if the screens are with built in EDLA or if it comes with an OPS in the products '**Additional Information**' tab on the product page.
