SYNCT-TB-32-R	iPad Sync Trolley with storage, charging and universal sync for 32 iPads and USB Tablets with 2 RFID card locks	95W x 41D x 92H

Shelf dimensions:

The iPad Sync Trolleys are designed to accommodate iPads, USB tablets and eReaders up to 10.9" screen sizes. The shelf aperture size (mm) is 310d x 210w x 40h – big enough so you can leave your iPads and tablets in their cases (including large cases like the Griffin Survivor), but best to check your device dimensions (including the power connector) before ordering.

Finish and Specifications

Construction	White melamine-faced MDF carcase and doors, green steel electrical compartment door. White compact laminate top with handle cut-outs (trolley versions only).
Charge & Sync	Requires 1 power socket (UK and EU supported, others by request).
	Intelligent, universal charge and sync technology detects each connected device and determines the optimum charge settings – so each device will charge just as fast as if it were plugged directly into it's charger. Supports any device which is USB A chargeable. Upgradeable firmware to support future device generations. Sync connection to a host laptop or PC is via a USB-A cable port at the top front of the trolley. Data sync managed on a host computer using Apple Configurator, iTunes or just as USB drives.
	7th Generation iPads and earlier can be connected using the USB A to Lightening cables supplied with the iPads. 8th and 9th Generation iPads are supplied with USB-C to Lightening cables as standard – these will need to be replaced by USB-A to Lightening cables in order to charge & sync using the Sync module. 10th Generation iPads are supplied with USB-C to USB-C cables as standard – these will need to be replaced by USB-A to USB-C cables. *(These individual iPad & tablet USB cables are required but not included).*
Warranty	5 years (2 years for electronics)
