

## Ipad/tablet Charge Desktop cabinets

Compact, robust and very simple to use iPad charging cabinets for 10 iPads, iPad mini, tablet computers and other mobile devices. Separate USB cable storage, with only a short length of cable presented to each shelf – so no cable mess, no accessible USB sockets for users to break and no cables going missing! Available with device AC adapter storage or integrated USB-C power. All iPad charging cabinets have the choice of a digital code, RFID or key lock.

CHRG-C-TB-04-C	iPad Charging cabinet with secure storage for 4 iPads and Tablets. Lockable door with digital code lock and master key. AC adapters required but not included. (Minimum Order Quantities apply).	44w x 42d x 24h

#### Shelf dimensions:

The iPad cabinet is designed to accommodate iPads, USB tablets and eReaders up to 10.9" screen sizes. The shelf aperture size (mm) is 310d x 210w x 40h – big enough so you can leave your iPads and tablets in their cases (including large cases like the Griffin Survivor), but best to check your device dimensions (including the power connector) before ordering. The perfect iPad cabinet for classrooms, offices, warehouses and other commercial environments.

## – Finish and Specifications

Construction	White melamine-faced MDF carcass and doors, extruded plastic shelves, green metal electrical compartment door.
Charge only models	Requires 1 external power socket. The Charge only cabinets support "plugtop" AC mains power adapter & plug designs for UK, EU and other country plug sockets. Not suitable for mobile devices which have a separate laptop "brick" style power adapter (the zioxl Chromebook Charging Cabinets are good for these). Supplied with mains sockets.
Integrated USB-C Tablet Power option	Integrated USB-C and USB-A power system housed in the front accessible electrical side bay. Requires 1 power socket (UK, EU and others on request) per cabinet. USB Type-C ports support the Power Delivery (PD3.0) specification at voltages of 5V, 9V, 12V, 15V and 20V. So suitable for charging all types of Type C enabled devices including phones and tablets at up to 20W per port. USB Type-A ports support the Fast Charge (QC3.0/QC2.0) specification at voltages of 5V, 9V and 12V, so suitable for charging phones, tablets and other small USB Type A devices. Original Lightning or micro USB cables as supplied with the mobile device or high quality USB A cables with a grounding design suitable for data sync are required for use with this product. Supplied with double USB-C / USB-A ports – USB cables can be plugged into either the USB-C or USB-A port of each pair. <i>(Individual device USB cables are required but not included).</i>
Warranty	5 years (2 years for electronics)
