

Samsung VXT CMS

Samsung VXT is a cloud-based solution that brings together content management and remote device management capabilities. It allows users to remotely manage hardware settings and troubleshoot issues from afar, while effortlessly creating and deploying content without the need for training.

The screenshot displays the Samsung VXT CMS interface. At the top, there's a navigation bar with 'Samsung VXT CMS' on the left and 'Save', 'Save As', 'New', and 'Preview' buttons on the right. Below the navigation bar is a toolbar with icons for undo, redo, copy, paste, and zoom. On the left side, there's a sidebar with a 'Templates' section and a search bar. Below the search bar, there are sections for 'Recent', 'For You', 'What's New', 'Restaurant', 'QSR', and 'Retail', each with a 'Show more' link. The main workspace shows a food menu template with a large 'GRILLED BURGER' item and six smaller items numbered 1 through 6. Each item has a placeholder image and text like 'LOREM IPSUM' and pricing information. On the right side, there's a 'Background' settings panel with options for 'Background Color', 'Canvas Size' (Full HD, Custom), 'Width' (1920), 'Height' (1080), 'Orientation' (Landscape, Portrait), 'Duration' (01:00), and 'Background Sound'. At the bottom, there's a zoom control set to 100% and a 'Manual' button.
