Product information

Intel Core Ultra 9 285K

The Intel Core Ultra 9 285K is a high-performance processor designed for demanding gaming and productivity workloads. Featuring a multi-core hybrid architecture, it efficiently handles multitasking, content creation, and modern gaming with ease. Optimized for systems with a dedicated graphics card, the 285K supports the latest DDR5 memory and PCIe 5.0, delivering a fast, responsive, and future-ready platform for high-end desktops.

NVIDIA GeForce RTX 5080 Graphics Card

The NVIDIA GeForce RTX 5080 brings next-generation gaming and creative performance to high-end desktop systems. Built on the latest Ada Lovelace architecture, it offers smooth frame rates, high-resolution rendering, and advanced features such as ray tracing and DLSS 3. With ample VRAM and efficient power usage, the RTX 5080 is ideal for gaming, content creation, and professional workflows, providing reliable performance and cutting-edge visuals for prebuilt PCs.

Windows 11 Home

You'll also get Windows 11 fully installed meaning you're ready to game straight out of the box. Playtime. Anytime. Play the latest games with graphics that rival reality. Play with players on console. Play with the peripherals that you love. When it comes to playing your way, Windows 11 makes it happen.
