

**i3CONNECT Lift 4 Wall****i3CONNECT Lift 4 Mobile**

ONE LIFT TO HOLD THEM ALL.

Enjoy maximised flexibility with the i3CONNECT Lift 4. A secure touchscreen lift with a huge reach and a modular design, available as wall or mobile versions. Fits high demands for ergonomics, quality, durability, flexibility and safety.

USB Interface

Losing your remote control is no longer an option, as the screen is your remote! Thanks to the new USB interface, you can control the lift height directly from the menu of your touchscreen.

Reduced Foot Size

Moving your screen from room to room used to be quite the challenge as the bulky foot always got stuck somewhere. The Lift 4 has a massively reduced foot size, making it much easier to navigate the screen through doorways to the desired location.

Optional Laptop Tray

Prefer going old school and use a cable to connect your laptop to the screen instead of sharing wirelessly? We got you covered! Add the optional laptop tray to the Lift 4 and you got a handy place to put it.

No One Likes a Mess

We included a cable box to the Lift 4, so all cables can be neatly stored away. As a bonus, adding a simple lock allows you to secure all cables in place and prevent any nasty surprises.

Save Time on Assembly

To make sure you can get on with your day as soon as possible, we made sure 90% of the common part of the Lift 4 is pre-assembled and tested in the factory.

PRODUCT NUMBER

- A. i3CONNECT Lift 4 Wall / Common Part 10010881
- B. i3CONNECT Lift 4 Mobile 10010880
- C. i3CONNECT Lift 4 Laptop Tray (optional) 10010882

LIFT SYSTEM

- Height adjustable: Electric motorised lift
